REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance. In interpreting the claims, in light of the specification and the applicant's amendments and remarks filed 04/29/2010, the Examiner finds the claimed invention to be patentably distinct from the prior art of record. The prior art does not teach "A system for providing data filtering from a cable modem termination system (CMTS) in a cable data network consisting essentially of: the CMTS, wherein the CMTS comprises a packet counter, wherein the packet counter determines a number of packets sent to a subscriber device from the CMTS (herein, "downstream packets") and a number of packets originating from the subscriber device and sent to the CMTS (herein, "upstream packets"), and a data gateway agent; a datastore accessible to the data gateway agent for storing a data transfer rule selected by a subscriber, wherein the selected data transfer rule comprises filtering criteria selected by the subscriber, and wherein the data gateway agent comprises instructions that cause the CMTS to: receive a packet prior to receipt of the packet by the packet counter; access the data transfer rule stored in the datastore; use the filtering criteria to determine whether the packet violates the data transfer rule; forward the packet to the packet counter for counting when the packet does not violate the data transfer rule; and apply a corrective measure to the packet when the packet violates the data transfer rule" as recited in and as required by the Applicant's independent claims. The limitations of the independent claims are allowable subject matter over the prior art, in light of the specification.
2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Claims 36-59 are allowed.

Conclusion

Any inquiry concerning this communication should be directed to Vivek Srivastava at telephone number 571-272-7304.
